Retirement Planning Checklist

Congratulations - You must be nearing retirement! What an exciting time for you!

This checklist has been designed to assist you in the process of planning proactively for your retirement. There are many variables that need to be taken into account when developing a sound retirement plan. The questions that follow touch upon some key areas that need to be addressed.

If you are unsure of your status on any of these questions, it may be confirmation that you need to make take a little extra time to explore these topics. The most successful retirements are those with very little gaps in all these areas. To that end, we have developed the **GAP Analysis Process** to assist families in addressing these questions and in planning for retirement in a comprehensive manner that will lead to confidence and peace of mind.

To learn more about our process, don't hesitate to contact the office at 204 977 8022, email HWG@assante.com or visit our website at www.humphrieswealthgroup.com
